Forecast for Monday 10 Aug 2020

Weather: Perhaps some patchy low cloud on peaks at first, but variable cloud cover during the day with sunny spells. Sunshine may be strong at times. There is a chance of showers during the day, low risk of lightning, and low chance of becoming more persistent for a time during the evening. Warm on peaks despite fresh to strong northeast winds, perhaps very warm in valleys.

Chance of cloud free mountain/hill tops above 600m: 20 percent in the early hours, then 90-100 percent during the day.

Visibility: Mainly very good, locally moderate in showers. Poor or very poor in early morning low cloud on peaks.
